Marchetti Illuminazione SRL was founded more than 40 years ago in Ancona, Italy with a simple precise objective: to give life to crystal chandeliers and lamps that capture our customers' imaginations. Marchetti's products are recognized for their design and customization, always respecting traditional craftsmanship and attention to detail. Marchetti is a fully equipped manufacturing facility with metal fabrication, galvanic metal finishing, painting, and full assembly capabilities.

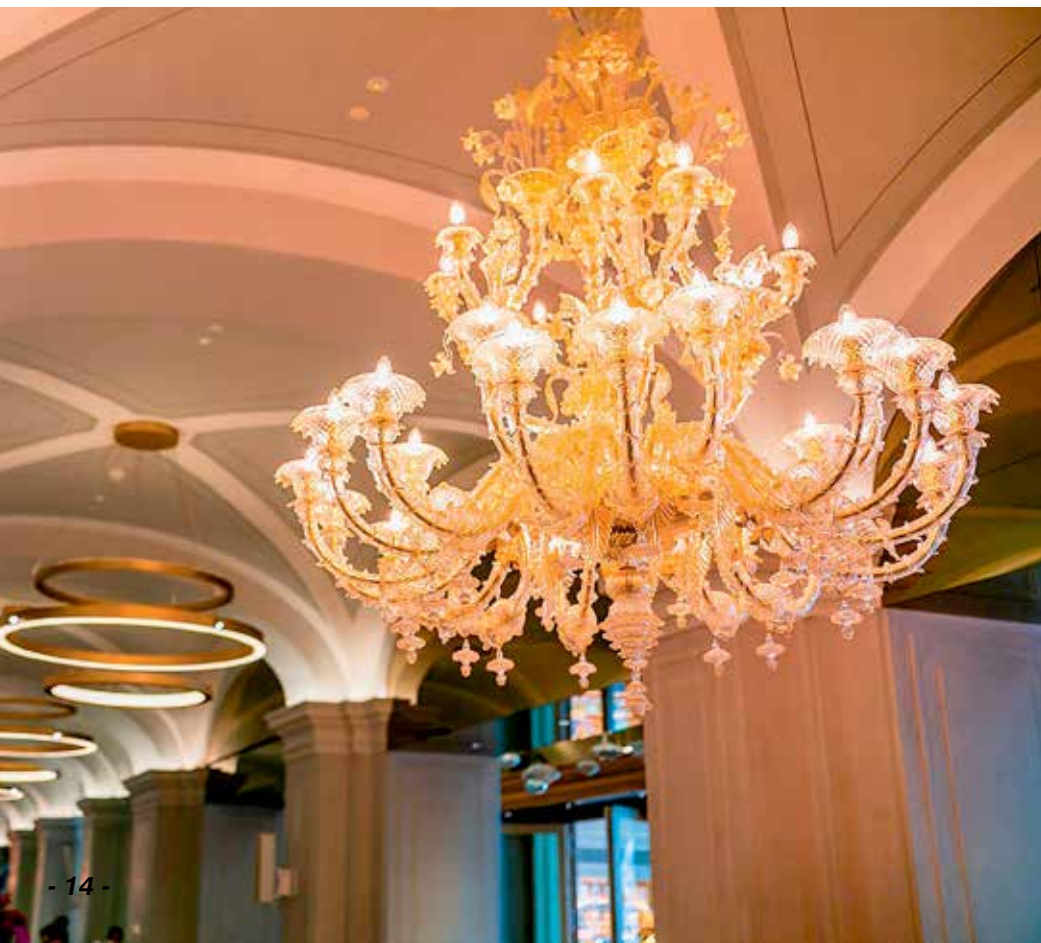

WHAT LOLA WANTS, LOLA GETS...

lolalighting.com

Lola Lighting is committed to sourcing multiple design genres and materials from all over the world, capturing a wide span of styles. We capitalize on the advancement of modern technology delivering global designs to the lighting industry allowing our clients to specify exotic and cultural-infused lighting from far away places. Lola Lighting includes traditional as well as modern indoor and outdoor lighting, manufactured with the implementation of local materials and craftsmanship. Explore lighting in its artistic nature ranging from conventional classic styles and trends to art-nouveau and modernity. In cooperation with Italian, Spanish, Turkish, American, Scandinavian, Romanian, Thai, Moroccan, and many more designers engaged in the lighting industry.

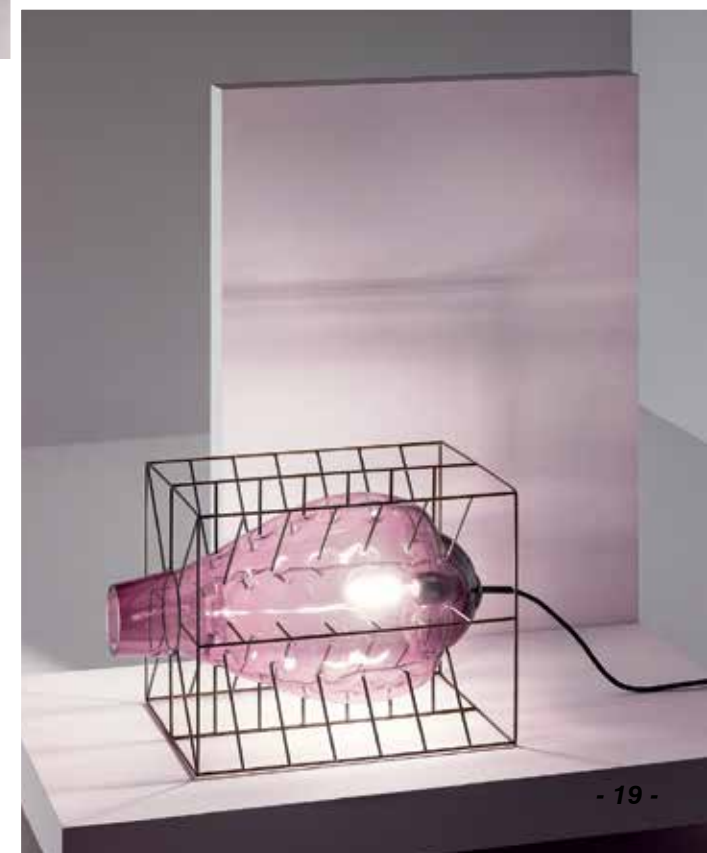

The main objective of Fisionarte SRL is to conceive, develop and produce lighting that showcases the dexterity and expertise of carefully selected Italian designers and master craftsmen. Emotion and passion are enshrined in the collection and ensures its longevity. In order to achieve this, the design process for each piece is liberated from mental constraints and from any limitations dictated by habits or stereotypes. Fisionarte products are manufactured by their creators and by master craftsmen who weave fabrics and metals, create blown glass, and experiment with combinations of various materials.
